Figures at a Glance 2011 - India and Karnataka

Particulars	Sex	India	Karnataka
Population	Persons	1,21,01,93,422	6,11,30,704
	Males	62,37,24,248	3,10,57,742
	Females	58,64,69,174	3,00,72,962
Decadal Population Growth rate 2001-2011	Persons	17.64	15.67
	Males	17.19	15.46
	Females	18.12	15.88
Density of Population (per sq.km.)		382	319
Sex ratio (females per 1000 males)		940	968
Population in the age group 0-6	Persons	15,87,89,287	68,55,801
	Males	8,29,52,135	35,27,844
	Females	7,58,37,152	33,27,957
Proportion of child population in the age group 0-6 by sex	Persons	13.12	11.21
	Males	13.30	11.36
	Females	12.93	11.07
Literates	Persons	77,84,54,120	4,10,29,323
	Males	44,42,03,762	2,28,08,468
	Females	33,42,50,358	1,82,20,855
Literacy rates	Persons	74.04	75.60
	Males	82.14	82.85
	Females	65.46	68.13

Note

1. The figures for India, include by sex, the estimated population, 0-6 population and literates of Paomata, Mao Maram and Purul sub-divisions of Senapati district of Manipur for Census 2011.
2. For working out density of India, the entire area and population of those portions of Jammu & Kashmir which are under illegal occupation of Pakistan and China have not been taken into account.
3. For Census 2011, the population of "Others" has been clubbed with the "Males" for working out Population, 0-6 Population, literates and related rates and ratios.

The responsibility for the correctness of internal details rests with the publisher.
 The territorial waters of India extend into the sea to a distance of twelve nautical miles measured from the appropriate base line.
 The external boundaries and coasts of India agree with the Recon1 Master Copy certified by Survey of India.

NOTE ON PROVISIONAL POPULATION TOTALS - KARNATAKA

The Indian Census, considered as one of the biggest administrative exercises in the world, has a long and rich tradition and also enjoys the reputation of being one of the best in the world. Census 2011 is the 15th in the unbroken series since 1872 and the 7th after independence. As in the earlier censuses, Census 2011 was also conducted in two phases, viz., i) **Houselisting and Housing Census** and ii) **Population Enumeration**. In Karnataka, the first phase of the Census - **Houselisting and Housing Census** - was conducted for a period of 45 days from 15th April to 1st June, 2010 and the second phase - **Population Enumeration** - was conducted from 9th February to 28th February, 2011 with a **Revisional round** from 1st to 5th March 2011 in order to update the information collected like births, deaths, etc. On the night of 28th February, 2011 the **Houseless Population** was enumerated. The Census Moment, the referral time at which the snapshot of population is taken, is **00.00 hours of 1st March, 2011**.

The definition of modern Census as defined by the United Nations is '*the total process of collecting, compiling, evaluating, analyzing and publishing or otherwise disseminating demographic, economic and social data pertaining, at a specified time, of all persons in a country or in a well-defined part of the country*'.

The Indian Census has a long tradition of releasing the population data on a provisional basis within a short time after the completion of the Population Enumeration. The Provisional Population totals are generated by adding the Population as reported by each Enumerator for the Enumeration Block(s) assigned to him/her. The provisional totals at various administrative levels like Taluk/Town, District and State are arrived at through a process of successive aggregation. The entire exercise of aggregation, right from the Enumerator's Block level to the State level, is completed within a short span of time.

The data items on which the provisional totals are collected and compiled for each sex are population, child population in the age group 0-6 and literate

population. The actual processing of data from each schedule and generation of final tables of this huge volume of census data will take considerable time, therefore, provisional population data relating to some key indicators of the population becomes extremely useful to the various data users and demographers.

These provisional results are being released in two stages as Provisional Population Totals - Paper 1 of 2011 and Provisional Population Totals - Paper 2 of 2011. In this booklet the Provisional Population Tables 1 to 6 are being released which forms the basis of the Paper 1. Paper 1 will contain a brief analysis of the Provisional Population Totals along with maps, charts, diagrams and photographs. It is expected to be published soon and will be a priced official publication. Paper 2 of 2011 is expected to be released in May 2011 and will mainly focus on rural-urban break-up of population.

It will be important for the readers to bear in mind that the first flush of census results, 'The Provisional Population Totals' is rather raw and not subjected to the intensive checks and cross checks as the usual final census data is. Further, the numbers given are somewhat tentative and the final figures are found to be a bit different. Some caution is therefore needed while interpreting the results. The intelligent data user will definitely keep these limitations at the back of his mind but still use the data provided here to pick up some early demographic trends.

Detailed and substantive reports will be published in a phased manner in accordance with the General Tabulation Plan supplied by the Registrar General & Census Commissioner, India.

Director of Census Operations,
Karnataka.
